Mr. Eugene L. Kilcullen

McLean, Virginia 22101

Dear Mr. Kilcullen:

Thank you for sending me a copy of your recent letter to [redacted] detailing your concerns about the focus of the roadway improvement alternatives on Route 123 in connection with the CIA expansion.

STAT
STAT

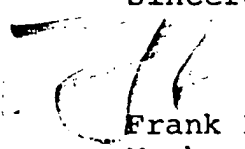

As you know, the road consultant, working with the CIA and the Virginia Department of Highways and Transportation, developed various proposals, including roads other than Route 123, to mitigate the impact of the additional traffic from the planned expansion. The Traffic Advisory Committee at its most recent meeting narrowed the alternatives to two for improvement to Route 123.

The road consultant is now refining these two alternatives for future consideration by the committee. These two alternatives are undergoing preliminary design and are expected to be available to the committee for review and comment within a month. The agency then plans to have a public meeting after the committee has completed its review.

I am hopeful that this process, which includes area citizens, will be helpful in resolving the issue of how best to improve access to the CIA and minimize the impact on the surrounding area.

Thank you again for providing me with a copy of your letter and for letting me know of your concern.

Sincerely,

Frank R. Wolf
Member of Congress
